Instructions

1. Print each page of the pattern. Be sure to print the pages at “Actual size” or scaled to 100%.
2. Once printed, you’ll need to secure all pieces to the wood you are scrolling. Once the pattern pieces are cut, you’ll likely need to sand any rough areas off before finishing and assembling. **NOTE: be sure and measure the thickness of your wood before cutting the feet cutouts in the base.**
3. Assemble the pieces using the image above as a reference.
4. Add a final finish and glue the pieces together.
